{{ACADEMY_NAME}}

Parent Enrollment & Payment Authorization Agreement

Recurring Monthly Academy Fees · Saved Payment Method · Event & Tournament Charges

1. Enrollment and Billing Summary

2. Recurring Monthly Academy Fee Authorization

By accepting this Agreement, I authorize {{ACADEMY_NAME}} (the "Academy"), through CAM and its payment processor, to charge the payment method I save during enrollment for the recurring monthly academy fee shown above while the Player remains actively enrolled.

I understand that the recurring charge will generally be initiated on or about the billing date shown above. The charge may appear on my card or bank statement under the Academy name, CAM, the payment processor, or another descriptor disclosed at checkout.

This authorization is limited to the recurring academy fee and other recurring amounts specifically disclosed to me as part of the enrolled fee plan. Tournament, match, camp, travel, merchandise, equipment, or other variable charges are not covered by this automatic monthly authorization unless I separately approve the specific charge as described below.

3. Tournament, Match and Other Variable Charges

For tournament fees, match fees, camps, travel, uniforms, equipment, special training, or other non-recurring charges, CAM will present the purpose of the charge and the exact amount before payment.

The Academy will not use my saved payment method for a variable charge until I approve that specific charge in CAM (for example, by selecting "Approve & Pay"). My approval applies only to the charge presented at that time unless I separately enroll in an optional auto-pay feature in the future.

After a successful variable charge, CAM will make a payment confirmation or receipt available to me and will retain an audit record of my approval.

4. Saved Payment Method and Payment Security

I authorize CAM to create or use a customer/payment profile with its designated payment processor and to save a tokenized reference to my payment method for the purposes described in this Agreement.

CAM should not store my full card number or card security code (CVC/CVV). Sensitive payment credentials are entered into and handled by the payment processor's secure payment components. CAM may retain non-sensitive payment information such as payment-method ID, card brand, last four digits, expiration month/year, payment status, and transaction references.

If the payment network or payment processor automatically updates an expired or replaced card, the updated payment method may continue to be used where permitted. If renewed authorization is required, CAM will ask me to approve the payment method again before future automatic charges.

5. Billing Address

My parent/contact address may be used to prefill the billing address during payment setup. I will confirm whether the billing address for my payment method is the same as my parent/contact address.

If my payment method uses a different billing address, I may enter the correct billing address in the secure payment component. The payment processor may perform its own address-verification or fraud checks when processing a payment.

6. Fee Changes

If the Academy changes the recurring monthly fee or other recurring terms, the Academy will provide at least 30 days' advance notice before the new amount or terms take effect, unless a different notice period is required by applicable law or payment-network rules.

If applicable law, the payment processor, or card-network rules require renewed authorization for a material change, CAM will request my approval before the changed recurring charge is initiated.

7. Failed Payments and Payment Method Updates

If a scheduled payment is declined or otherwise unsuccessful, the Academy or CAM may notify me and may retry the payment using the same saved payment method where permitted by the payment processor and applicable rules.

I am responsible for keeping my payment method and contact information current. If CAM requests an updated payment method or renewed authorization, I will provide it before future automatic charges can continue.

Any late fee, returned-payment fee, or other administrative fee will apply only if it has been separately disclosed in the Academy's published fee policy or enrollment terms.

8. Cancellation of Recurring Payment Authorization

I may revoke this recurring payment authorization at any time through the CAM Parent Portal or by providing written notice to the Academy using the contact method shown in CAM.

A revocation received before the next scheduled billing charge is initiated will stop future automatic charges under this authorization. Revoking payment authorization does not, by itself, cancel the Player's academy membership, waive amounts already due, or reverse a payment that has already been processed. Membership cancellation must follow the Academy's separate enrollment/cancellation policy.

9. Refunds and Credits

Payments already processed are subject to the Academy's published refund, credit, and cancellation policy presented during enrollment or otherwise made available in CAM.

If a refund or credit is approved, CAM will record the adjustment and the payment processor will return funds according to its normal processing timelines.

10. Electronic Notices and Receipts

I agree to receive transactional enrollment, billing, payment, and event-charge notices electronically through CAM and, as applicable, by email, SMS/text message, WhatsApp, or in-app notification using the contact information I provide.

These transactional notices are related to academy administration and payment activity and are not, by themselves, consent to receive unrelated marketing communications.

11. Parent Acknowledgments

- I have reviewed the recurring monthly fee, billing schedule, and cancellation terms shown in CAM.
- I authorize the Academy to initiate recurring monthly charges to my saved payment method for the disclosed academy fee while the Player remains enrolled, until I revoke this authorization or the enrollment ends.
- I understand that variable tournament, match, camp, travel, equipment, or other non-recurring charges require my separate approval before CAM charges my saved payment method.
- I understand that CAM does not need to store my full card number or CVC/CVV and that payment credentials are handled by the designated payment processor.
- I understand that I can review payment history, receipts, and current payment status in CAM when those features are available to my account.

12. Exact CAM Acceptance Language

Recommended checkbox / button language for the CAM Enrollment Portal:

13. Electronic Acceptance Record

The parent's electronic acceptance will be treated as authorization for the recurring payment terms shown at the time of acceptance. CAM should preserve an auditable record of the exact terms accepted.
